

riesling

IS NOT AN IN INHERENTLY SWEET WINE

WHAT you need to understand, accept, and embrace, is when one does encounter a *little* residual sugar in a riesling, it is counterbalanced by a high level of tartaric acid. When a wine rides this razors' edge of balance, it is the most thrilling beverage POSSIBLE.

Rudolf Steiner urged us to become aware of one's humanity.

By drinking Riesling,
you become a better person.
